

Dispensing

We dispense NHS and private prescriptions and will give advice on how to get the most benefit from your medicines. We keep a comprehensive stock of medicines and provide a fast and efficient service to enable us to fill all prescriptions promptly.

Medicine Containers

All medicines are dispensed in child resistant containers unless you request us not to. Please remember to keep all medicines out of reach and sight of children. If you find opening containers difficult we can supply easy open devices.

Our pharmacist can advise you on safe storage of medicines.

Unwanted Medicines

Please return all unwanted medicines to the pharmacy where we will dispose of them safely.

Health Advice and Self-care

The pharmacist and our trained assistants are available for advice on all medicines and minor ailments, in private if required. We can also give you advice on how to live a healthy life, for example, advice on how to stop smoking, or healthy diets.

We can direct you to other sources of advice and assistance if we cannot help you ourselves.

Medicines Use Reviews

You can make an appointment with our pharmacist to discuss how you are getting on with your regular medicines. It will allow you to learn more about your medicines and ask any questions you may have, and if you are having difficulties taking your medicines our pharmacist may be able to assist. Ask for more details on this service.

Patient Medication Records

Our computer allows us to keep records of all your prescriptions dispensed by us. This helps us check for possible problems, such as reactions between medicines and will help us deal with any queries you may have.

We comply with the Data Protection Act and the NHS code of practice on confidentiality.

Please read our separate leaflet "Safeguarding your Information" for details of what records we keep and how we deal with confidential matters.
